

We've got a lot in common.

Like you, we know what it's like to see a need and meet it. In higher education, that need is a meaningful degree, paired with in-demand skilled trades training, at a cost that doesn't encumber our students with crippling debt.

Welcome to the College of St. Joseph the Worker.

The Truth, Beauty, and Goodness of the Catholic intellectual tradition & The practicality of training in a skilled trade.

We value the relationships that we've been building within the Chesterton Schools Network. To further strengthen those bonds we are excited to introduce the Chesterton Schools Scholarships—a special opportunity for any Chesterton Academy student accepted into our program.

Students will have a chance at one of three first-year scholarships valued at \$2,500, \$2,000, and \$1,500, awarded through a short essay contest.

To be eligible, apply by Nov. 30, 2025:
